Brethren.

The Month of February is here and we must think of Presidents' Day particularly Brother Washington who receives a 21-gun salute on his Birthday, which is the highest honor given any military or foreign dignitary.

In our last business meeting one of our officers read some facts about the meticulous ritual the soldiers watching over the Tomb of the Unknowns. The soldiers walk 21 steps across the Tomb; his weapon is always on the shoulder opposite the Tomb. On the 21 step, the soldier turns and faces the Tomb for 21 seconds and repeats the same ritual returning to his starting point.

I asked some of the Brethren why 21? One brother from another lodge said, because it's the sum of the digits 1776. This I found to be not true.

I Googled Arlington National Cemetery: Ceremonies, Origin of the 21-Gun Salute. It states, salutes can be traced to the middle ages and that cannon salutes perhaps to the 17th century. In the Anglo-Saxon Empire, seven guns was a recognized naval salute, seven being the standard number of weapons on a vessel. Forts could fire three rounds for every one fired from sea, hence the number 21.

Beginning in our colonial period the United States fired on shot for each state in the Union. This was continued until 1841 when it was reduced to 21 from 26. The 21-gun salute was not formally adopted until Aug.18, 1875. This was at the suggestion of the British, who proposed a "Gun for Gun Return" to thier own 21-gun salute.

Fraternally,
Forrest A. Andrews
