December 1988

Brethren:

Imagine the progress that has been made, since man first hooked a horse to a cart and pulled it down the road!

And imagine

The modifications made to the cart to make it a sleeker, more efficient and more serviceable instrument, along with the care and breeding of the horses that were used.

Had you been the owner of the finest horses or a manufacturer of the most elegant and efficient carts that could be made, would you have appreciated the invention of the automobile?

At the present time, it is impossible for us to imagine life without a car to transport us to work, to take us on vacation, or to carry out the every day functions of life.

Masonry is somewhat troubled by our lack of attentiveness to progress, our inability to accept change; and our unwillingness to deal with progress, has caused some of the problems that must be corrected if we are to continue.

In closing, I earnestly and sincerely thank all of you for your support and encouragement. My deepest and most sincere concern is that you will continue to support our incoming Master, Brother Floyd Taylor, with the same zeal and fortitude that you have so graciously shown me.

Sincerely and Fraternaly,

GARY R. LAWSON
